

## Women's Health and Wellness Questionnaire

*Vaginal rejuvenation treatments are designed to benefit women by improving their health and quality of life. It is a simple, non-surgical feminine laser treatment designed to restore vaginal tightness, address stress urinary incontinence, improve lubrication, and relieve pain/itching. Women who are experiencing vaginal laxity, loss of moisture or stress incontinence due to aging or childbirth can often benefit from this procedure. **Please take a few moments to answer the questions below and then return this form to your nurse and/or medical provider upon completion.***

Have you been experiencing any of the following symptoms?
